

KAESTLE BOOS ASSOCIATES CHOSEN TO DESIGN NANTUCKET PUBLIC SAFETY FACILITY

New Britain, Connecticut, August 1, 2007 – Kaestle Boos Associates, one of New England's most experienced firms specializing in municipal architecture, has been selected to design and build the new public safety facility for Nantucket. The proposed facility will serve as the headquarters for the island's police and fire departments as well as functioning as the island's emergency management center.

"We are very excited about being selected for this important project on the historic island of Nantucket," says Kaestle Boos Associates Chairman and CEO Charles W. Boos. "Our firm is one of New England's most experienced in public safety facility design and we have a track record of being able to design facilities that complement and preserve historic areas like Nantucket, while still being able to meet the demands of 21st Century public services. We look forward to creating a facility that will make the residents of Nantucket safer by providing a better working environment for their police and fire departments and emergency management team."

The project will begin with a needs assessment starting this summer with final construction slated to be completed in 2010. Kaestle Boos Associates is teaming with Mitchell Associates for programming of the fire department component of the new facility.

Kaestle Boos Associates, Inc., is one of New England's most experienced architectural design firms with offices in New Britain, Connecticut, Foxboro, Massachusetts, and Portsmouth, New Hampshire. The firm specializes in educational, public safety, theater

arts, parks and recreation and other public architecture. Founded in 1963, the firm's ultimate goal is to create structures that are functional, aesthetically pleasing, environmentally sound, and economically justifiable. For more information visit www.kba-architects.com or call (860) 229-0361.
